RAID GUILD

Web3 Native Development
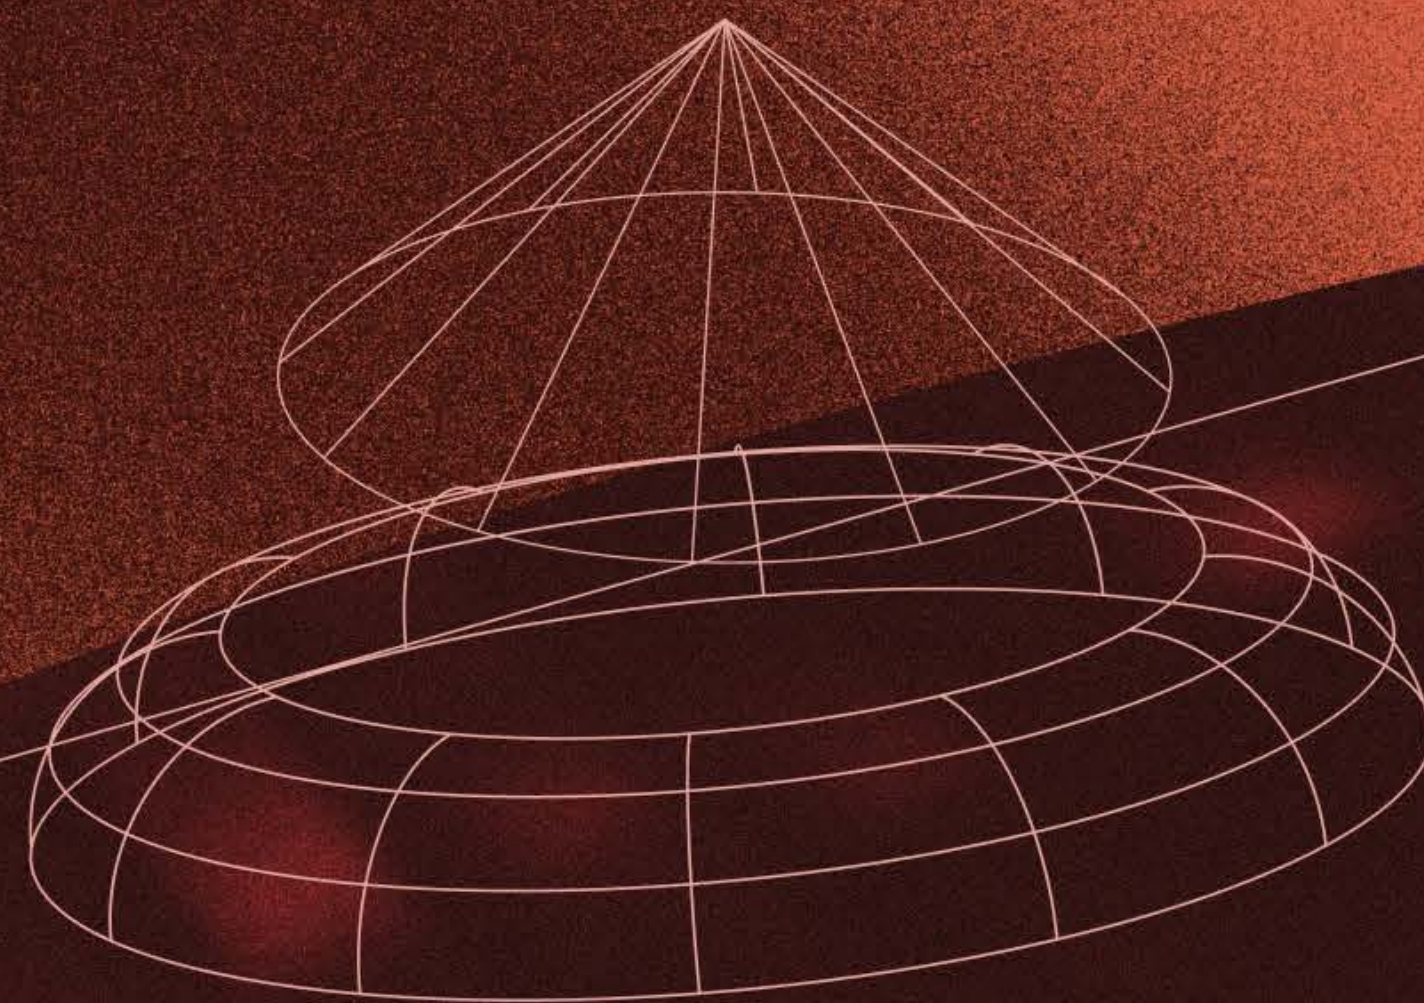

2025

www.raidguild.org

If you want to go fast, go *alone.*

If you want to go far, go *together*

RaidGuild is a Web3 Native Development Agency. DAO-born. Battle-tested. Agile, always and deep where it truly counts.

We are 150+ developers, designers and strategists coordinating since 2019 and have delivered on-chain systems for many of the protocols and tools you use everyday.

Born to *Raid*

- Deep Web3 expertise: smart contracts to UX.

- DAO-native: transparent, modular, async.

- Global, agile squads with low overhead.

- Smart escrow via SmartInvoice.

- Tokenomics, governance & system design baked in.

We're hackers, product managers, protocol engineers, and designers — we build for pleasure *and* profit.

A Raid's *Lifecycle*

Raider Types: *Support*

Apprentice: `New applicants`
Angry Dwarf: `Treasury Management`
Bard: `Marketing, Socials, Growth`
Healer: `Operations, People`
Hunter: `Business Development,`
Rogue: `Legal Advisory`
Scribe: `Content Creator`
Tavern Keeper: `Community`

Raider Types: *Builders*

Alchemist: `DAO Consultant`
Archer: `Design, UI`
Cleric: `Account Manager`
Druid: `Data Science, Analytics`
Monk: `Project Manager`
Necromancer: `DevOps`
Paladin: `Backend Dev`
Ranger: `UX, User Testing`
Warrior: `Frontend Dev`
Wizard: `Smart Contracts`

1. Client Intake

A Consultation defines scope and budget.

RaidGuild returns with a proposal

2. Squad Formation

DAO forms a custom-fit project team

3. Escrow

You fund a SmartInvoice

We only get paid as Agreed conditions are met

4. Execution

Sprint-based async collaboration

5. Delivery + QA

Polishing

Battle-Testing

6. Release

Final sign-off triggers token release

Core *Offerings*

Raids can come in all shapes and sizes - From adding features to launching entire products.

If your project advances a decentralized future, there's surely something we can do for you.

CONTRACTS · **FRACTIONAL CTO/CMO** · **AUDITS** · **GTM**

Launch, Get Users, Keep Them.

Validate your use case faster with a Product Raid.

MVPs / R&D / Product Development

SDKS · **WEBINARS** · **DOCS** · **ADVOCACY** · **GRANTS**

Attract and Retain Talent.

We can help you walk the walk and talk the talk.

Developer Relations as a Service

HACKATHONS · **TUTORIALS** · **COHORTS** · **WORKSHOPS**

Make your Audience, your Experts.

Empower the people who will build the future of your Protocol.

Educational Cohorts & Content

DEFI · **STABLECOINS** · **GOVERNANCE** · **BRIDGES**

All systems, Go. All the time.

Let us keep the engines running while your team focuses on what's next.

Protocol Infra Ownership & Maintenance

BRAND · PRODUCT

PRODUCT & SYSTEM DESIGN
